

Benefits

- Enables a highly mobile workforce
- Offers a tested, robust wireless solution
- Built for organizations that rely on stable mobile environments

Integrations

- ExtremeWireless™
- Ascom i63 VoWiFi handset and Ascom Myco 3 Smartphone

Integration of ExtremeWireless with Ascom Mobile Devices

Integration of Extreme Wireless Solution with Ascom Mobile Devices

Mobile devices have become an integral part of organizations worldwide. Therefore, ensuring their security and reliability is critical to business outcomes. With the integration of Ascom mobile devices and ExtremeWireless, highly mobile and time sensitive environments achieve smooth interoperability and a seamless flow of information between teams, devices, and systems across verticals.

Certification and stability testing takes place in the Ascom labs to ensure a complete validation of the ASCOM i63 and ASCOM Myco 3 in conjunction with Extreme Networks infrastructure. Validation includes authentication, association, stability, and roaming tests with the mobile devices. Extreme Networks works closely with Ascom to ensure ExtremeWireless is validated with Ascom requirements and specifications.
