

ASCOM ENVIRONMENTAL POLICY

Being an Ascom employee means knowing our Environmental Policy and applying it in everything we do today, tomorrow and for the generations to come.

Ascom is committed to providing solutions with products and services that consistently fulfil the needs of our users and customers, as well as all applicable regulatory requirements and compliance obligations. We endeavour to minimize our environmental impact, both in our operations and during the lifecycle of our solutions ensuring we work to protect the environment and prevent pollution.

Our Environmental Goals

- *Economical with raw materials*
- *Minimise lifecycle impact*
- *Increase awareness*
- *Involve suppliers*

To achieve this, we are committed to maintain an effective environmental management system and continually improve it.
