### **Ascom wins two substantial orders in both divisions**

**Ascom started the second half-year 2014 with the win of two substantial orders with a combined value of a high single digit CHF million amount.**

#### **Wireless Solutions wins a CHF 4.7 million order from an OEM customer**

The Wireless Solutions division wins in a fierce competition a CHF 4.7 million order, which contains a comprehensive DECT wireless network solution and handsets for mission-critical communication.

The main reason for the OEM customer to choose Wireless Solutions as the partner in this deal was the end users high demand on up-time with uninterrupted communication, information security and reliability, in combination with Ascom proven competence and experience.

#### **Network Testing receives a substantial order from Swisscom**

The Network Testing division signed a three-year contract with Swisscom with a value of a lower single digit CHF million amount.

After an extensive and detailed evaluation, Swisscom selected several products from the Ascom Network Testing portfolio to expand, improve, and continuously monitor the performance of its wireless network. With this agreement, Swisscom and Ascom have entered into a long-term partnership in which Ascom will coordinate the development of TEMS products with features and device integration recommended by Swisscom's requirements. Ascom will also provide product support and upgrades for the duration of the contract.
