*Ascom wins a contract to deliver the Ascom Healthcare Platform and its software solution Digistat for ICUs, surgical rooms and labs in the renowned Campus Bio-Medico University Hospital in Rome. The value of the order exceeds half a million Swiss francs.*

The Campus Bio-Medico University Hospital ([www.policlinicocampusbiomedico.it](http://www.policlinicocampusbiomedico.it)) aims to optimize its clinical workflows with the Ascom Healthcare Platform and its integrated Digistat software solution for Intensive Care Units (ICU) and operating rooms as well as hemodynamic and endoscopy labs. After going through a thorough evaluation and by establishing a close collaboration with the hospital, Ascom has worked out the most attractive solution.

Ascom will be the provider for the Italian university hospital, an international center of excellence that is accredited by the Joint Commission International (JCI) since 2014. JCI is an organization that identifies, measures, and shares best practices in quality and patient safety. The accreditation indicates very high levels of efficiency and security in patient treatment.

Francis Schmeer, Chief Sales and Marketing Officer of Ascom, says: "This order is another success in selling our Ascom Healthcare Platform and its software solution Digistat to a major customer in the European healthcare sector. The win shows that Ascom is a real solutions provider with a profound knowledge base in improving clinical workflows in a state-of-the-art fashion."
