*Ascom has won a contract for the Turku University Hospital and its campus expansion T3. Ascom delivers a wide range of cutting-edge offerings including the software solution Digistat and the clinical smartphone Ascom Myco 3. The contract with a duration of 2 years won in December 2019 amounts to around CHF 1.5 million.*

The new T3 hospital building of the Turku University Hospital is an important project for the Hospital District Southwest Region of Finland. Ascom will deliver, inter alia, the nurse call system Ascom Telligence, its Digistat software solution including Connect, Smart Central and Smart Central Mobile, Ascom Myco 3 smartphones with Unite Axess, and provide profound consulting services.

T3 with a total surface area of 55,000m<sup>2</sup> is planned to open in early 2022. It will encompass pediatric wards, a pediatric intensive care unit, operation rooms and maternity wards. The T3 hospital intends to enable more family-oriented care and to provide functional facilities for its personnel.

«This won contract is a perfect example of Ascom's ability to deliver a comprehensive range of solutions to a state of the art hospital. Our consultancy expertise for clinical workflows as well as our hardware and software offerings will enhance the workflows of the clinical staff and provide modern patient care», says Ascom CEO Jeannine Pilloud.

### About Ascom

[Ascom](#) is a global solutions provider focused on healthcare ICT and mobile workflow solutions.
